PREFACE

I am pleased to finally offer the Money Reiki Master course (Level II).

Now, before you get started, I want to make one thing very clear: The term “Money Reiki Master” is in many respects a misnomer. It implies that being a Money Reiki Master means you have somehow mastered all your money problems! Let me assure you that this may or may not be the case.

The term “Money Reiki Master” follows the traditional Reiki designations, and refers primarily to one who is able to teach and pass attunements. It does not imply nor promise complete financial mastery.

Now, initially, I had wanted to offer a Master level that could have *all the answers* for you, but that was my own block – not spirit’s block. Spirit had other ideas and wanted as many people as possible working with the energy, and that meant giving other people the power to attune others.

So, whether you realized it or not, you are here to help pass around the Money Reiki energy. And that’s important!

As we learned in the Money Reiki Practitioner’s Manual, Money Reiki is here to lift up the vibration of money around the planet. (It’s a good idea to refer to the Money Reiki Practitioner’s Manual and go over the principles of Money Reiki there as you work with the new symbols available in this manual.)

One important thing to remember is this: Money Reiki, unlike other prosperity systems, is not just about manifesting. Manifesting is a powerful tool, and by using positive thinking and any number of energy methods, you could indeed manifest a lottery win, or a new car, or any number of material objects.

But Money Reiki goes much deeper than that. This is the missing piece that is really here to transform your life in a big way. It's one thing to get some "magic money" in to pay a bill that's overdue; but it's quite another to revamp your whole life so that you are really doing what you love and living the life you want.

Here's the kicker: When we work with Money Reiki, we not only help ourselves, but we help everyone on the planet have a better relationship with money. So every time you pass an attunement, you are not only helping the person you attune, but you are helping the entire planet. That's kind of a cool thing, don't you think?

Stephanie Brail, July 2005

PART I – MONEY REIKI THEORY

Making the Shift

You may not have realized it, but...by taking the Money Reiki Master level course, you are now committing yourself to a new life!

This is where the rubber meets the road. If you've been putting off your heart's desire or your life purpose, you may find that ignoring your calling is going to become very, very hard for you to do from now on.

As we learned in the Money Reiki Practitioner course, Money Reiki is not about manifesting large sums of cash quickly. It's more than that. It's a transformative energy that is here to help make the planet a place where everyone can live lives of abundance, contributing their own unique talents and abilities, and following their life purpose.

What does this mean for you? Well, if you were taking this course in hopes it would bring you a huge cash windfall and solve all your financial problems in one swoop, you are SOL (S*** Out of Luck!).

Money Reiki can help you manifest some cash. But it goes much deeper than that. It works a complete root canal on your money issues. It will get to the bottom of them (if you let it do its work).

This process of change can often be challenging, but it is well worth it.

How Money Reiki manifests for you depends on your personal circumstances and issues. And it will work differently for you than it might work for your client or student. As the Money Reiki Master, it will be your job to help guide your client or student as the energy works with them.

With this in mind, it's important to be aware of the following when working with Money Reiki:

Money Reiki often attracts people who have serious financial issues. As Reiki Practitioners, we need to be clear (to ourselves and to others) that we are not financial advisers nor fairy godmothers who can fix these issues in one fell swoop.

Financial issues can stem from a number of different roots, including health problems, poor financial management, negative conditioning from childhood, past life karma, spiritual contracts, wrong career paths, and much more.

It is not your job to diagnose the source of the financial problem. But as a Money Reiki Master, it is important to remember these guiding principles:

1. We are all taken care of by the universe (God, Spirit, or whatever you want to call it).
2. We each have a special gift or calling for our life's work.
3. When we commit to our life's work, we will be helped along the way.
4. Knowing the first three items, it is important to TRUST, TRUST, TRUST!

The path, however, may not be straight, narrow, and easy to find. You and your clients may find that things get tougher or scary while they are working with the energy. So you must remain strong and in the faith that the energy works (it does), and to trust it and keep working with it (even when things look bad).

Here's what happens. (Now, if you come to this course as a Reiki Master who is currently doing fairly well, you must keep in mind these things for your clients and students.)

If you have financial issues, especially serious issues, some major adjustments in your life need to take place. You may need to change your spending habits, get a new job where you'll make more money, or learn how to run your business better (so you make a profit).

You may need to change careers entirely. You may need to move to an area that is less expensive but has a higher standard of living. You may need to improve your health. Who knows? Maybe for some, the path will be to find the right life partner who brings the stable financial component.

It really doesn't matter what it is – just know (and this is a fact!) that **if you have financial problems, something in your life needs to change.**

Money Reiki, especially the more you work with it, will facilitate that change. And this is why it is not focused on manifesting the lottery win. The lottery win is a band-aid. Money Reiki works to cure the root of the problem.

You don't need to necessarily know or understand the root problem. Or maybe you do. Bottom line is, Money Reiki will help you make the change.

More importantly: It will do it **for you** if you have been unwilling or too scared to do it on your own.

For myself, I had been working a freelance job that was paying my bills but distracting me from my main business, which is doing hypnotherapy and energy healing. However, I was really tied to that steady freelance income.

I was doing really great too, with good ratings and feedback.

Then, I made a misstep with one client, and boom, out of the blue, I got fired! In a very unreasonable, nasty way too (I wasn't even told I was fired).

This happened the same week I got a notice from the IRS that was none too pleasant. NOT FUN!

So, I did what any normal person would do. I had a meltdown. I had been living from check to check and had no savings.

But I had to do something. What choice did I have? Boom, I had to get my real business going, and fast.

And yet, somehow the business came in...maybe not tons at first...I still had to scrape by...but clients would come in out of the blue, often miraculously, when I needed the money.

And I realized that my whole problem, all along, was that I was not doing what I was supposed to do. I was working at things I didn't love, thinking I had to do so to pay my bills. But really I wasn't fully committing to my business.

The truth is, I was afraid to be too "woo woo." I didn't want to be known as a healer. I didn't want to be new age. I didn't feel comfortable with myself about it. I was afraid I'd become too psychic and go nuts. And I had issues with my sister, who had in a much shorter time than I had, put herself out there as a psychic and healer, and I didn't want to "be like her" either.

I also felt that if I went "woo woo" I'd have to play nice all the time and not be myself. On the plus side, I like to approach things with a sense of humor, but I am also known to be very opinionated. Could I be opinionated and humorous and do my healing work? For some dumb reason, I thought I couldn't.

These were all self-imposed blocks that I had created for myself, that were keeping me from doing what I really should have been doing.

But – aha! – I had been working with Money Reiki. So when the universe decided it was time for me to stop playing small, it just smacked me up the head...and then some!

It was a bit traumatic at first, but well worth it.

You may also find (for yourself and/or your clients) that things will change in big ways with Money Reiki. Often the existing structures may break down first.

This is one of the reasons that I recommend waiting at least three months between Level I and Level II Money Reiki attunements. Waiting means that may structures that need to go may be removed a bit more gently (if that's possible).

If you do work with the energy a lot, the structures may break down very quickly. There may be surprise job endings (firings, layoffs). Surprise moves (loss of apartment). Surprise problems (foreclosure, bankruptcy, IRS fun).

When that happens, just bless the situation and know that the universe is not only asking, but **demanding** you to move forward with your life purpose! The old crap is being liberated so new and better stuff can come in the door!

Now – traumatic, dramatic events may not occur for everyone using Money Reiki. I only describe these things so you, as the Money Reiki Master, are aware that it may happen to some (and maybe even you, if you are lucky!).

If abrupt changes do happen, it is important to use *more* Money Reiki, and trust the universe. Let go and let God, as they say. You may be surprised at what happens.

PART II – MONEY REIKI PRACTICE

To help facilitate these life changes, there are three new symbols for the Master level of Money Reiki.

Euro Symbol

One of my European students asked me if they might be attuned to the Euro symbol in addition to the dollar sign (used in Money Reiki Level I). I thought that was a great idea, and I am including the Euro in this course. (You may also, at your discretion, give this symbol to your Level I students).

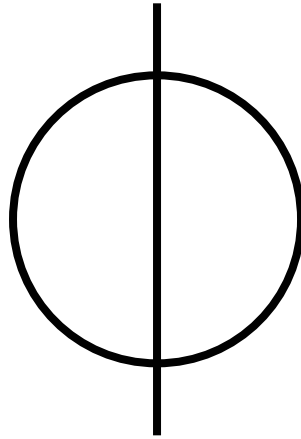

The Euro symbol is used in the same way as the dollar sign. It also works specifically with helping lift up the vibration of money where the Euro is used. For those outside of Europe, it can also be a great tool to help manifest money or opportunities that are European-based.

As with the dollar sign, when the Euro symbol is applied, it should be infused with spiritual energy and glowing with white/golden light.

You can also use any symbol for any world currency in Money Reiki, using the self-attunement process described later. So if you'd like to work with British pounds, or the Yen, you can certainly do so. These symbols can all be used to attract work, business, and opportunities from the countries that use the currency. Using those symbols also raises the money vibration for those countries.

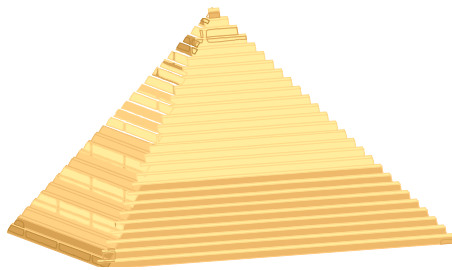

Manifestation Symbol

The Manifestation symbol is actually the cent sign, with the circle fully closed. Somehow this symbol came to me as a “completion” symbol. The symbol can be used to manifest things. Write down what you want on a piece of paper, draw the Manifestation symbol on the paper, and place it in your Money Reiki Box.

You can also use this symbol to draw things to you (clients, money, etc.): Hold your hands out, palms up. Imagine the Manifestation symbol vibrating on the palms of your hands, drawing in goodness to you.

The Golden Pyramid

The Golden Pyramid is a 3D symbol. It consists of a 4-sided pyramid of gold. I usually see the pyramid spinning on its base in a clockwise motion.

The Golden Pyramid is used to clear deep karmic issues surrounding money and pass attunements. To clear karmic issues, you would use it as a distance healing (even in person). Ask for any negative money karma or contracts to be cleared. You may see in your mind the Golden Pyramid opening up to “swallow” the bad karma and/or contracts. These are then transmuted and released.

Types of Attunements

There are three different kinds of Money Reiki attunements at this time:

1. Money Reiki Healing Empowerment*
2. Money Reiki Practitioner Attunement (Level I)
3. Money Reiki Master Attunement (Level II)

**This is the original Money Reiki Healing Attunement I initially offered for free on my website. I am now calling it an empowerment to avoid confusion.*

Money Reiki Healing Empowerment

The Money Reiki Healing Empowerment is a gentle Reiju-style attunement that lifts up the money vibration of the recipient. The Money Reiki Healing Empowerment can be used on anyone, whether they have been attuned to Money Reiki or not. The empowerment does not include any course information and does not attune someone to become a Money Reiki Practitioner.

You can give the Money Reiki Healing Empowerment away for free or charge for it if you feel so guided. It is the ONLY Money Reiki attunement that can be passed without some form of energy exchange (see guidelines below).

Once attuned to the Master level, you can give yourself Money Reiki Healing Empowerments as guided to lift up your own vibration surrounding money.

Money Reiki Practitioner Attunement

This is the Level I attunement. When you attune someone to this level, they will receive the dollar sign symbol (see the Practitioner Manual). They will also be able to use Money Reiki on themselves, others, and objects.

Please do not give away this attunement for free: There **MUST** be an energy exchange to pass this attunement!

Money Reiki Master Attunement

This is the Level II attunement. When you attune someone to this level, they will receive the Euro symbol, Manifestation symbol, and Golden Pyramid. They will also be able to attune themselves and others to Money Reiki.

Please do not give away this attunement for free: There **MUST** be an energy exchange to pass this attunement!

Attunement Guidelines

Money Reiki is different from other Reiki “add-on” systems and therefore practitioner and master-level attunements **cannot** be passed without some form of energy exchange! In other words, you may not give away the Money Reiki system for free. (As far as attunements go, only the Money Reiki Healing Empowerment can be given away for free, or attunements you give to yourself.) You *can* offer Money Reiki healings and financial blessings for free.

IMPORTANT! Please abide by the following guidelines when giving Money Reiki Practitioner and Master attunements. **The attunements will not work properly if these guidelines are not followed!**

1. The Money Reiki courses (Level I and Level II) and attunements must NEVER be given away for free. NEVER. This is non-negotiable.

I have done much meditation on this, and the guidance I have received has told me that it is **very important** that this system is not given away for free like many other Reiki systems.

Why should you charge for the course? Because by working with this system, we are learning how to value our work as healers and therefore we need to charge for our time. Especially in the Western world, there is no reason why any able-bodied person couldn't pay \$20-30 for a decent Reiki distance course. You can easily spend more than that on a night at the movies.

Also, I have been told that people who are unwilling to pay or provide a fair exchange to other Reiki Masters should not be teaching this system to others.

2. When pricing Money Reiki courses, a fair price must be charged (not too little, and not too much). Charging one cent for a Money Reiki course (as a way to get around rule #1) will not work! Overcharging will not work either! If you are charging \$10,000 for this course, and promising miracles in exchange, you are reaping major bad karma on yourself. You must charge fair value for the course.

If you over or under charge for the course, you are not living by the principles of Money Reiki, and are therefore not teaching the system properly.

By asking your inner guidance, you will be guided to a proper fee for the course. Different circumstances may require different fees. For example, you may want to charge more for an in-person course, because you are offering added value with your time and expertise.

As of this writing, I am pricing both courses at \$27 each. (This is what my guidance told me to do). I feel this is an extremely affordable fee for very valuable courses. However, you may choose to charge more or less than this

number, as long as it is fair and reasonable (and covers your time and energy for the attunement).

3. You are allowed and encouraged to barter items and services for the Money Reiki courses – as long as there is an energy exchange that respects both parties. This rule allows for those who are truly in a financial bind to receive the courses.

4. The Money Reiki courses (levels I and II) may not be bundled together and sold as one whole system. One reason for this is the tendency to devalue each level. But more importantly – and this is very important!!! – students of Money Reiki should ideally have at least three to six months in between the Level I and Level II attunements.

Money Reiki can be a life-changing system for some. If the energy is run too much too soon, it won't *ultimately* harm the person, but it could end up being a bit stressful (to say the least). As I mentioned earlier, life changes often need to happen to improve financial conditions. Slow and steady will still get you there, however. Unnecessary job loss, foreclosures, bankruptcies, and other abrupt financial “clearings” are a potential side effect of working with too much Money Reiki energy too soon.

Ultimately, all these changes would be for the highest good. But it's a good idea to take your time. And you need to prepare your students for working with this energy over time (as opposed to the quick fix). This is why the courses must be sold separately.

Now, if someone does choose to buy both individual courses at the same time, talk to them and find out if they want to get both attunements at once. (You may also want to consult your guidance to see if they should receive the attunements

at once or separately.) You might suggest that they wait a little bit for the Level II attunement.

5. Finally, please do not give the Money Reiki manuals away for free or post them on free attunement websites, mailing lists, or Yahoo groups.

If you have received this manual from a teacher who has not followed these guidelines, you may want to ask for your money back (if they've overcharged) and find a teacher who will follow the guidelines.

Now, if for some reason you have a problem with the rule that you must charge or offer a fair exchange for Money Reiki, you probably need to work a little more on yourself with the energy before teaching Money Reiki others. Do some more work with the energy – do you have a problem accepting payment for your services?

However, if you have a very strong philosophical opinion that Reiki should be free, teaching Money Reiki may not be for you. **Please respect this system and do not try to hijack it or change it to suit your agenda.** It simply will not be “Money Reiki” if you pass the attunements for free. It will be something else.

If you truly want to offer a free system regarding money issues, you may be interested in Abundance/Prosperity Reiki, which is often offered freely on the Internet (do a search on Google). You may also be guided to channel and create your own Reiki system working with money that would be free. I would highly encourage that. I think it's always the higher road to create your own “thing” if you are unhappy with someone else's “thing.”

Passing the Attunement

When I give a Money Reiki attunement, either in-person or via a distance, I follow the same procedure. I asked to connect to the person's higher self. I then ask to connect with Archangel Raphael and the "Money Devas."

(You may wonder why Raphael and not Michael or another archangel. While Raphael is not historically associated with money or abundance, he is associated with healing, and Money Reiki is ultimately a healing system.)

Ultimately, it is Raphael and the Money Devas who pass the attunements. I simply make the request. But additionally, I visualize the following:

1. The Golden Pyramid spinning, descends over the person to be attuned.
2. Appropriate symbols (if any) are sent through the crown of the head:
 - a. For the Money Reiki Healing Empowerment, no symbols are sent.
 - b. For Level I, the dollar sign is sent.
 - c. For the Master level, the Euro, Manifestation symbol, and Golden Pyramid are sent.

Thank Raphael and the Money Devas. That's really all there is to it.

You can also use your own attunement methods to pass the symbols and the energy.

For self-attunements, simply follow the same method. You can self-attune at any time, and also attune yourself to any currency symbol in the world for use.

Now, sometimes I've found myself delaying an attunement for someone, even the Level I attunement. Sometimes that means it's not time for the person to receive the attunement quite yet, for whatever reason. If this happens, give them

the Money Reiki Healing Empowerment first and then the Level I or II attunement when guided.

Don't rush it. I have found that usually it's not too long of a wait. I think sometimes it may be that giving the attunement too soon would put the individual in a critical situation at the wrong time. They may need to be a little bit stronger or more stable before working with a full blast of Money Reiki energy. So trust your guidance on this.

In all cases of delay, giving the Money Reiki Healing Empowerment will help strengthen the person's energy system so they can handle the full attunements.

PART III – MONEY REIKI AS A WAY OF LIFE

In the Level I course, you learned many tools to work with your intentions using Money Reiki. Here we take it a small step further.

Getting Clear on Intentions

Because part of Money Reiki's purpose is to help people live their true life paths, you'll find that it gets harder and harder to work at things you don't like, and much easier to finally give in to your heart's desire.

But you'll still need to get very clear on what it is you want. You probably have an idea even if you think you don't (or tell yourself you don't). Here are a few homework assignments to try on for size:

1. Where do you see yourself in 5 years? 10 years?
2. What do you really want to do with your life?
3. If you can't earn a living from your passion (say, playing guitar), what jobs can you do that you'll enjoy, fulfill your purpose, and allow you to enjoy your passion?
4. Who do you want to work with? What kind of environment do you want to work in?
5. What is it that you really want, but are afraid to admit?

When manifesting work (either a job or a client), get very clear on the work and/or clients you want. Then write it down on a piece of paper with the Manifestation symbol. Here's an example:

I want to attract more local, female clients who are fun to work with, appreciate what I do for them, pay on time, aren't flaky, and tell all their friends about me.

I would also like to attract more distance healing clients on the Internet, who really benefit from my services and enthusiastically pay me and refer friends to my website.

Having a hard time figuring what you want out? You might want to write down what you *don't want* just to get more clarity in what you *do want*. (When done, toss the "don't want" paper out.)

For example (some of this is coming from my personal experience, no kidding):

I don't want: Creepy men who say they want to work with me but then try to ask me out on a date and make bizarre sexual comments to me.

I don't want: Flaky people who make appointments with me and cancel at the last minute.

I don't want: Cheap-ass clients.

I don't want: Clients who say they want to change but really just want someone to listen to them whine all the time.

Etc. etc.

Work on getting very clear, and then trust the universe to bring you what you want and need! Life then becomes very magical!
